

INTERIOR IN A CLASS BY ITSELF

CRAFTED BY YINGLING AVIATION

Yingling Aviation is a Textron Aviation-approved service center and the premier interior upgrade provider for the Cessna® Caravan® aircraft.

The Oasis Interior program by Yingling Aviation proudly stands as the sole Cessna® aircraft approved interior upgrade program for Caravan® aircraft and is endorsed by VREF Aircraft Value Reference and Aircraft Bluebook Digest. The customizable interior upgrades offer exclusive innovation and refined craftsmanship while maintaining the utmost safety and quality standards, further enhancing your aircraft's value.

"The first thing my guests notice is the luxury interior — especially the ultra-comfy, executive-grade seats. I really appreciate the thoughtful features like the convenient thermos holders and pull-out tables for the grandkids. Plus, the real flusher installation adds a nice touch. With the cabin's noise-reducing features and attention to details, it makes every ride feel like a private jet experience. The Oasis interior gives me luxury and convenience tailored to my lifestyle and flight needs."

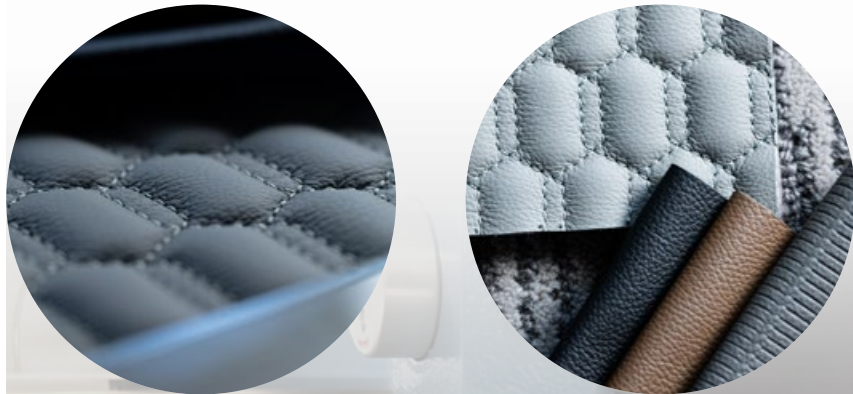

LYNN NICHOLS | OASIS CARAVAN CUSTOMER

Seat Design

The versatile OASIS seats offer forward and aft tracking, 360° swivel, full recline, retractable headrest and armrest as well as inboard and outboard tracking.

Where craftsmanship meets technology, customization thrives. Our new CNC quilting machine adds to our in-house capabilities.

Personal Style

Our designer collections create cabins that exhilarate and inspire to express your individuality.

Comfort

Soft fabrics, fine leathers, and veneers create a luxurious yet livable atmosphere.

Functionality

High quality executive seating, floor plans, tables and other amenities create a versatile and custom environment.

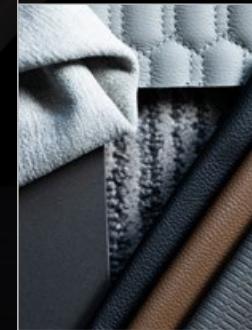

THE COLLECTION

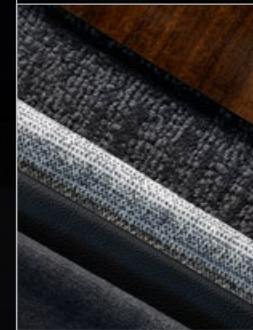

Oceanside

Nichol

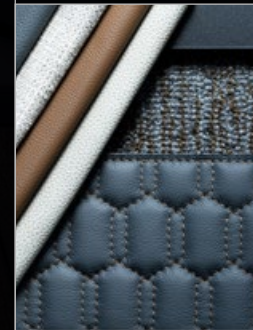

Black Pearl

Sand Dunes

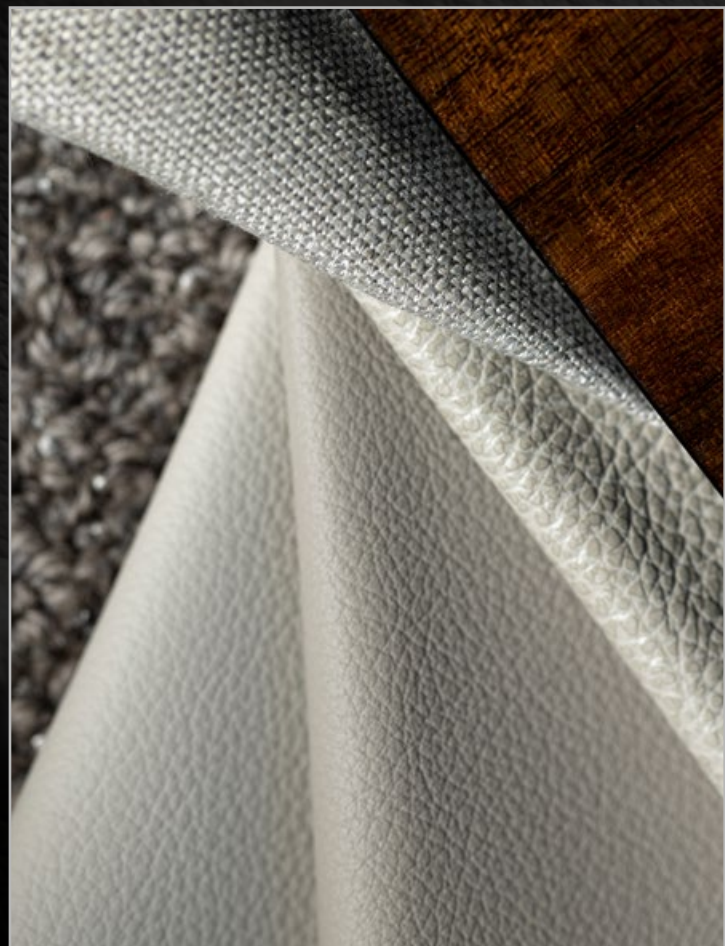

Storm

Zion

Oceanside

Reminiscent of sun-bleached sand and gentle salty breezes, our Oceanside scheme envelops you within a peaceful calm. From off-white leather on the seats to a lightly pebbled lower sidewall, we have thoughtfully selected each material to evoke a spa-like atmosphere.

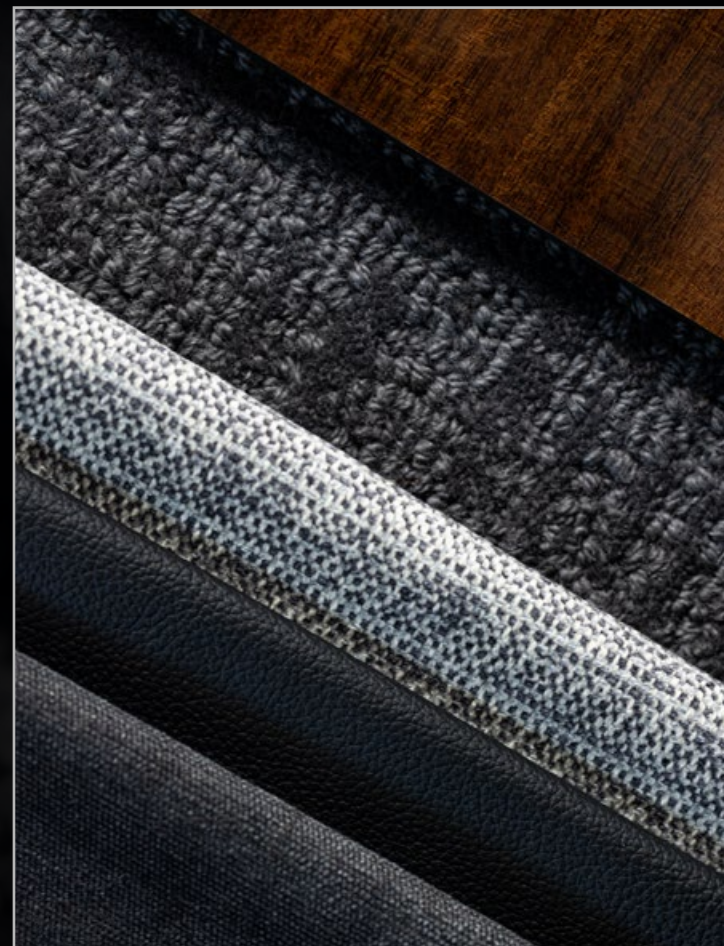

Nichol

Curated specifically as an homage to our founder, the Nichol scheme welcomes you on board with casual sophistication. Custom tailored seats accentuated by quilting and piping stand proud against the contrasting linear lines of the wool carpet. The pronounced Italian leather grain of the lower sidewall is enhanced with the addition of a woven embossing pattern. Painted cabinetry details anchor the design throughout the cabin.

Black Pearl

Indulge in the smartly tailored Italian leather seats, balanced harmoniously by the woven linen lower sidewall. Deep charcoal and inky blacks are the key features of this sporty interior. High-gloss walnut veneer furthers the automotive-inspired touches.

Sand Dunes

Evocative of shadows cast on desert landscapes, this scheme provides a calming sense of grounding, even at 25,000 feet. Silky linear striations in the carpet guide the eye through the cabin, with gentle visual landmarks, including the textured umber leather on the lower sidewalls and the soft taupe leather on the seats.

Storm

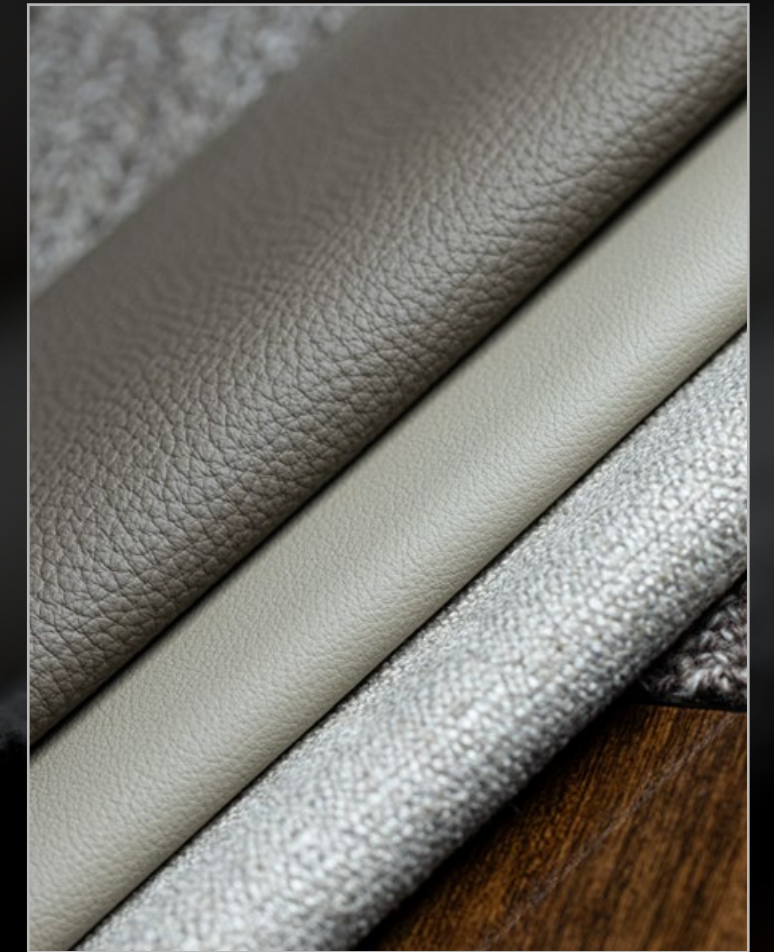

Inspired by the quiet intensity that occurs before a summer downpour. Bright, coppery leather accents are balanced tonally by the tailored smoky-grey Italian leather on the seats. Wool strands of sky blue and umber ripple through the carpet. Metallic flecks in the cabinetry paint refract, as if speckled with raindrops. Every detail in this scheme has been deliberately selected to imbue the nostalgic anticipation of a rainstorm.

Zion

An earthy color palette full of rich, warm browns that elicits feelings of stability and strength. The full-bodied grain texture present in the lower sidewall leather is visually balanced by the deep, chestnut and coffee-colored wool flecks scattered throughout the carpet.
